L&B Data Systems Custom Website Design

300 SW 15th Pl
Florida, United States 33991
Cape Coral

Phone: 239-677-4425

L&B Data Systems has been in business since 1996, you know, the old stone knives and bearskins days as opposed to present day web technologies and design. The nice thing is that we still have the stone knifes and bear skins, so if something old school is needed, we've got you covered. We do not use pre-made templates or drag n' drop designers, every Web Site begins with a blank page (all sites are responsive unless otherwise requested*). We start by hand-writing the website code (HTML, PHP, CSS, Java-script, etc.) using programs such as Dreamweaver and Photoshop as well as many others to enhance the code and site. We will create something for you that is Unique. You won't see a site design like it anywhere else as it is a custom designed theme made just for you!! If you want the job done, and done right, go to someone who knows what they are doing; not someone who is "learning how to do it". In the end you will find that you will save yourself a lot of money and headaches!
